Free Resources for Cyber Risk Managers

Cyber Risk Management Podcast

This is a business friendly podcast for senior decision makers who need to understand and manage their organization's cyber risk. My cohost is Jake Bernstein, a cybersecurity and privacy attorney at the law firm of K&L Gates.

- https://www.cr-map.com/podcast

As a companion to this podcast, I also email a 500-word "Inflection Point" every other week. You'll find the sign up at the URL above. I'll never give your email address to anyone else and it's easy to unsubscribe so check it out!

Building Strong Cybersecurity Team

It can be very tough to build a strong InfoSec team, so I gathered over 50 experienced cybersecurity hiring managers and we wrote you this free, open source guide:

- "Cybersecurity Hiring Manager Handbook" -- https://cybersecurity-hiring-manager-handbook.netlify.app/

Also, I created several free videos to share what I've learned through hard won experience.

- "How to Accelerate Finding and Professionally Developing Talented InfoSec Team Members" -- https://youtu.be/pXn0ai5DPdE
- "How Certifications Help You Find Great People for Your Security Team" -- https://youtu.be/MgTh7JsxqxY
- "How to Hire Cybersecurity—InfoSec Professionals Who Get Things Done" -- https://youtu.be/gxlMKjI2hJM
- "Kip Boyle introduces the Cybersecurity Hiring Manager Handbook and shows you how to build a strong team" -- https://www.youtube.com/live/N4DmpMBMTec

Educating Senior Decision Makers on Cybersecurity

Helping senior decision makers understand the true nature of cyber risk and how to manage it effectively is a big focus of my work.

- "Cybersecurity is not a Technology Problem: It's a Management Opportunity" -- https://youtu.be/SGIce07O0Mw
- "Ten Steps to Master Cybersecurity" -- https://youtu.be/XWAkHwCIY5A
- "Conversation with Kip Boyle About Cybersecurity as a Competitive Advantage" -- https://youtu.be/Gw76HrPI_6M
- "Effective Workplace Cybersecurity" -- https://youtu.be/37TfffZeIUU
- "Preparing for Cyber Attacks in Manufacturing" -- https://youtu.be/9hNyPbptVoI
- "Smartly Meeting Your Customer's Cybersecurity Demands" -- https://youtu.be/nBMkywLr1RE
- "Effective Workplace Cybersecurity" -- https://youtu.be/37TfffZeIUU
- "What Finance Leaders Really Need To Know About Cyber Risk Management" -- https://sitnshow.com/podcast/364-what-finance-leaders-really-need-to-know-about-cyber-risk-management-with-kip-boyle/

Continuing Legal Education

I've delivered many hours of continuing legal education to attorneys across the United States. These replays are of greatest interest to information security professionals.

- "Anatomy of a Hack: Pandora Papers" -- https://youtu.be/8R9ATGjGF6k
- "Anatomy of Two Ransomware Attacks" -- https://youtu.be/hE-10NaVjRE
- "Law Firm Operations the Ethics of Cybersecurity: Risk Assessment & Data Backups" -- https://youtu.be/SZnEl7iafzM

Other Topics

If you're interested to know why I'm a Podcaster, listen to this guest spot of mine and you'll find out.

- "The Unique, Human Connections of Podcasting" -- https://youtu.be/bXh0SArCDk0

Free Resources for Cybersecurity Career

Your Cyber Path Podcast

Our podcast for anyone who wants to get into cybersecurity as a career or make their career flourish. My cohost is Jason Dion, who owns and operates Dion Training which specializes in helping people around the world to get their cybersecurity certifications.

- https://www.YourCyberPath.com

As a companion to this podcast, I also email a 500-word "Mentor Note" every other week. You'll find the sign up at the URL above. I'll never give your email address to anyone else and it's easy to unsubscribe so check it out!

Cybersecurity Career Tips

Lots of people have asked me how they can get into cybersecurity as a career or make their career flourish. So I made these videos to help them know what the hiring manager is looking for when they're considering them for a job or promotion.

- "Tailor Your Resume to Get Noticed Part 1, with Kip Boyle" -- https://youtu.be/mpay3GFHU40
- "Tailor Your Resume to Get Noticed Part 2, with Kip Boyle" -- https://www.youtube.com/live/7584UUEv_Uk
- "Play to Win: Getting Your Dream Cybersecurity Job" -- https://youtu.be/6Qq9WcI_sl0
- "Crush Your Interviews & Negotiate Your Salary" -- https://youtu.be/cdxL70s50js

Low Cost Resources for Everyone

Published Book

"Fire Doesn't Innovate: The Executive's Practical Guide to Thriving in the Face of Evolving Cyber Risks"

- Paperback -- https://www.amazon.com/Fire-Doesnt-Innovate-Executives-Practical/dp/1544513194

- Implementing a Vulnerability Management Lifecycle -- https://www.linkedin.com/learning/implementing-a-vulnerability-management-lifecycle/

Commercial Grade Resources

Training: *Hiring Handbook: How to Build an InfoSec Team that Gets Stuff Done ($575)*

In this class, Kip shows InfoSec supervisors how to build the team of their dreams. Students will learn how to attract and retain top tier talent. The kind of talented people who could work anywhere, but choose to work with you. Team members who get stuff done and don't think much about changing employers.

What's more, this kind of team throws open the door for you to become a powerful influencer on InfoSec strategy with your senior decision makers. Why? Because your team will let you work "on your program" instead of working "in your program." And that will allow you to spend more time learning about the business your team protects and building relationships with the other top influencers across your organization.

During this workshop, we'll be referring to the "Cybersecurity Hiring Manager Handbook" an open source document published under the Creative Commons Attribution 4.0 International (CC BY 4.0) license.

Training: *How to be Irresistible to Hiring Managers ($575)*

Are you spending hours a day trawling through the online job sites and spending even more time filling out lengthy application forms with nothing to show for it? Something's not working, but what could it be? Kip Boyle, a veteran hiring manager who has personally interviewed hundreds of job applicants as well as hired dozens of successful cybersecurity candidates, will teach you to think like a hiring manager and bend the hiring process to your advantage. After you take this class, you'll understand how to ace your resume, crush your interviews, and negotiate your ideal salary.
